## A Chance for Health.

Is afforded those fast sinking into a condition of hopeless debility. The means are at hand. In the form of a genial medicinal cordial, Hostetter's Stomach Bitters embodies the combined qualities of a blood purifier and depurative, a tonic and an alterative. While it promotes digestion and assimilation, and stimulates appetite, it has the further effect of purifying the life current and strengthening the nervous system. As the blood grows richer and purer by its use, they who resort to this sterling medicinal agent, acquire not only vigor, but bodily substance. A healthful change in the secretions is effected by it, and that sure and rapid physical decay, which a chronic obstruction of the functions of the system produce, is arrested. The prime causes of disease being removed, health is speedily renovated and vigor restored.

One M. L. Goforth was arrested on Tuesday on a telegraphic dispatch from Phoenix, asking Sheriff Nugent to look out for a certain described stolen mare belonging to Mr. Gardner of that place, and to arrest the thief. Mr. Nugent discovered the whereabouts of the mare, took her into his possession and jailed Goforth as the thief. An examination was entered into before Justice Burr, and an adjournment had for two days. The next day the defendant's attorney, Purdy, got out a writ of habeas corpus, and pending decision an adjournment after hearing, the defendant got tired and left for the sea-shore to recuperate. Constable, Billy Blankenship arrived from Phoenix but only got—left.

Balmey evenings. No frosts or freezes.  
Delightful weather. Glorious sunshine.  
The Board of Supervisors meet next Monday.

Prof. W. T. Rubell, of Antelope, called upon us Thursday.

The snow loaded with supplies for Lardo colony left Thursday.

Mr. Hart, of Tucson, was in Yuma a couple of days this week.

Buds are beginning to swell up with delight at the warm sunlight.

The reported and expected change of the S. P. timetable did not take place.

Reports from all points throughout the territory speak of booms and rumors of booms.

The Colorado river steamer arrived Saturday morning last from the Needles and way ports.

Hon. Isaac Lyons has our thanks for copies of the Governor's message and other public documents.

Mr. John Juhl and family, of Ehrenberg, are visiting the parents of Mrs. Juhl, Mr. and Mrs. August Green.

Heavy banks of clouds in the west at sunset during the week led some of the more recent residents to expect rain.

At last the Mexican war veterans are to receive their deserters, Congress having passed the act granting their pensions.

Judge Levy, of the firm of Levy & Co., now doing business at Silent, was in town this week, and left for home yesterday.

Hon. Samuel Purdy has had his office recently refitted, and added several hundred dollars worth of books to his law library.

The Colorado river steamer weighed anchor Wednesday and departed for up-river ports, carrying a heavy cargo of merchandise.

Mr. John Goodrich and Mr. Harry Goodrich, brother and son of Wm. Goodrich of Antelope valley, visited that valley last week.

Wm. Blankenship, Constable of Phoenix, came down to Yuma Tuesday night on official business; but Mr. Blankenship found that his man had skipped.

We read of northerly in Texas, blizzards in the east and shake-ups in California, while our Arizona climate is serene, balmy and delightful and our real estate solid and booming.

It is now positively stated that the new time schedule of the Southern Pacific will go into effect at San Francisco on the 5th inst. The change will probably not reach here until a few days later.

Mr. John Hayes, Superintendent of Lardo colony at the mouth of the Colorado river, paid this office a pleasant visit this week. He reports the colony in a most prosperous and flourishing condition.

Mr. J. B. Raine, a former resident of Los Angeles county, now a prominent stock raiser of Cochise county, was in Yuma on last Saturday. He was en route to Los Angeles with several cars of fine beef cattle.

Excursion trains for various points in California passed through Yuma almost daily the past week. The excursionists were long enough in Yuma to get a breath of our pure, balmy air, and the universal expression was one of delight.

Having formed a desirable professional connection in Washington, I am prepared to speedily and cheaply secure Mexican war pensions, for those entitled to the same within the territory. SAMUEL PURDY, Attorney-at-law.

Rumor hath it that the Southern Pacific contemplate deflecting their road from Maricopa to Phoenix, thence to Florence and up the Gila and San Pedro to Benson. In the not remote hence the rich and extensive valleys of the lower Gila will be tapped by a line of railroad.

R. D. Chappell, of Antelope valley, and Jesse Crane, of Los Angeles county, called upon us this week. Mr. Chappell informs us that land hunters are numerous and that the greater part of the surveyed portion of the valley is already located as well as part of the unsurveyed.

One of our exchanges from Texas says: "If you like this paper, and feel that you can spare the money, we would like to have you subscribe for the same. But we would hate to learn that, after subscribing, you had starved to death, when \$2 worth of grub would have saved you."

## Children.

Often need some safe cathartic and tonic to avert approaching sickness or to relieve colic, headache, sick stomach, indigestion, dysentery and the complaints incident to childhood. Let the children take Simmons Liver Regulator and keep well. It is purely vegetable, not unpleasant to the taste and safe to take alone or in connection with other medicine. J. H. ZELIN & CO., Philadelphia, Pa.

Prescott Gazette:—After a careful examination Superintendent Mahoney has reached the opinion that Patrick Donahue, the Yuma convict who made his escape from the asylum a short time since, and was subsequently captured on the line of the Southern Pacific railroad, is perfectly sane. He has notified Tom Gates, Superintendent of the Yuma prison, of this fact, and the chances are that Donahue will soon occupy his old quarters in the "pen."

## Brace Up.

You are feeling depressed, your appetite is poor, you are bothered with headache, you are fidgety, nervous, and generally out of sorts, and want to brace up. Brace up, but not with stimulants, spring medicines, or bitters, which have for their basis very cheap, bad whiskey, and which stimulate you an hour, and then leave you in worse condition than before. What you want is an alternative that will purify your blood, start healthy action of Liver and Kidneys, restore your vitality, and give renewed health and strength. Such a medicine you will find in Electric Bitters, and only 50 cents a bottle at A. Frank's store.

Our enterprising Supervisor, D. M. Field, is, we learn, negotiating with the Sunset roads for a grand Pullman Palace excursion from the glades of Florida to the glorious Antelope valley. The object is to locate a colony at the city (that is to be) of Tiwin. The denizens of the frost-bound regions of Okeechobee, Apalachicola and Kissimmee are on a stampede to milder climes where the lemon and the olive flourish unmolested by the festive blizzard.

It is understood that the recently appointed Code Commissioners will adopt the California Code whenever practicable, and it is but right that it should do so, as our litigation is similar in character to that of our neighbor state. In this connection it will not be desirable to have a property qualification attached to jurors, as in California, for the reason that such a qualification would render it almost impossible to obtain a jury in some of the smaller counties of the territory.

Hoof and Horn:—The Walnut Grove Water Storage company has at present in its employ over two hundred men engaged in erecting its mammoth dam on the Hasa-yampa. The work is being rapidly pushed forward, and at no distant day the question whether water can be stored by means of a dam during the rainy seasons, for use in droughts, will be soon practically settled, so far as Arizona is concerned at least.

The Star advocates the division of the territory into five judicial districts and the appointment of five judges to preside therein over what would be territorial courts with limited jurisdiction, doing away with Probate courts. In the Star's division Yuma county is tied on to Maricopa. Many thanks, dear fellow, but we object to being made a tail to that kind of a kite—prefer, in fact, to select our own men to take care of our interests.

Canada is preparing to annihilate the United States. She has 5000 troops in training and expects with this formidable force to blot us out. England promises to help her but the phase of affairs in Europe renders it extremely probable that England will avoid any serious complications so far away from home, you know, just at present. It wouldn't be English, you know.

A car load of ostriches from Africa destined for Los Angeles, passed through Tuesday night. They say this load is for the use of Los Angeles real estate men—to pluck when tenderfoot become scarce, to practice on, as it were.

The new Los Angeles court house will cost \$350,000.

Read our interesting letter from the Capital.

Mr. J. Kavanagh has opened a private school on First street, Yuma, for young ladies and gentlemen. He teaches all branches usually taught in public schools. Mr. Kavanagh comes to Yuma for his health, and brings with him a good record of twenty-five years experience as a successful educator. We wish him success. His terms are reasonable.

J. J. Atkins, Chief of Police, Knoxville, Tenn., writes: "My family and I are beneficiaries of your most excellent medicine, Dr. King's New Discovery for consumption having found it to be all that you claim for it, desire to testify to its virtue. My friends to whom I have recommended it, praise it at every opportunity." Dr. King's New Discovery for Consumption is guaranteed to cure Coughs, Colds, Bronchitis, Asthma, Croup and every affection of Throat, Chest and Lungs. Trial bottles free at A. Frank's store. The reported capture of Cajeme, chief of the Yaquis, by the Mexican troops and the consequent ending of the Yaqui war, seems, according to later dispatches, to have been incorrect. The man who was captured and believed to be the Yaqui chief, proved to be a rancher.

To the marvelous cures and discoveries made by Dr. Liebig & Co., are due all the great successes they have had. Dr. Liebig & Co. use every successful remedial agent known to modern science, favoring the schools of H. M.
